SINCE 1993

RIDGEWED ENGINEERING PVT LTD
Pumping Systems

CAPABILITY STATEMENT

A mechanical and electrical engineering contractor specialising in pumping systems, pipework and plant refurbishment.

Company Overview

Ridgewed Engineering (Private) Limited is a Zimbabwean mechanical and electrical engineering company incorporated in December 1993. We supply, install and commission pumping systems for municipal water and wastewater works, mines, industrial and agricultural sectors across the country.

Our work covers pumping plant, biological nutrient removal plants, water treatment plants, inlet works, settling tanks, clarifiers, filters, boilers, valves, pipework and instrumentation. We install with our own teams, plant and transport, and we support what we install.

Core Competencies

Supply and installation	Maintenance and support
○ Pumps – water and slurry centrifugal, vertical turbine, submersible and air-operated diaphragm pumps	○ Scheduled maintenance contracts on pumps, pump stations and compressed air plant
○ Air compressors, receivers and compressed air systems	○ Breakdown response, repair and overhaul
○ Valves, pipework and fittings; flow meters and instrumentation	○ Pump service exchange – a rebuilt unit on site while yours is stripped
○ Electric motors, starters, soft starters, variable speed drives and motor control centres	○ Water and slurry pump spares
○ Pump station installation, commissioning and refurbishment	○ Plant upgrades and performance recovery on pumps running below duty
○ Hydraulic analysis and pump system design	○ Condition monitoring against the original design model using DEPTA, our own pump system software
○ Dust suppression systems for haul roads, stockpiles, crushers and transfer points	○ Training for pump operators, fitters and plant engineers – on your site or at our premises

Registration

COMPANY REG.

5403/93

VAT NO.

220222186

Registered name	Ridgewed Engineering (Private) Limited	Incorporated	December 1993
PRAZ	PR2634060915, valid to 31 December 2026	Tax clearance	ITF263, valid to 31 December 2026
Organisation	NMSME (Other Entity)	TIN	2000754669
Category	SZ005 Water and Sewer Engineering and Utilities		
NSSA registration	SSRN 0110761Y		

Differentiators

1

We handle the whole import chain: CBCA conformity assessment, clearing, duty and delivery to site

2

Technical work led by qualified mechanical and electrical engineers

Our Undertakings

- One year guarantee on every installation
- Trained operators and handover documentation
- Strict safety policy on every site

Ridgewed ensures that all equipment, in both new plant and refurbishment, meets the specification it was designed for.

Selected Projects

CLIENT	WORK
Zimbabwe Power Company	Hydraulic analysis, Stage 1 low pressure condensate extraction pumps, Hwange Power Station
Harare Municipality	Crowborough Sewage Works
Harare Municipality	Firle Sewage Works
Harare Municipality	Morton Jaffray Water Works, Manyame
City of Harare	Mt Pleasant Swimming Pool, All Africa Games
City of Gweru	Southdowns Sewage Pump Station
National Museums and Monuments	Shangani water supply

Technical Team

Eng. Derick M. Dube
M.Sc (Mech. Eng), Pr.Eng, MZweE
Over 30 years in plant maintenance, pump installation and mechanical plant refurbishment.

Mr Omega Chinhara
Class 1 Electrician
Over 7 years in electrical installation, control panels, motor and instrumentation work.

Eng. K. Govere
BSc Industrial and Manufacturing (Mechanical)
Over 3 years in plant maintenance, pump installation and mechanical plant refurbishment.

Mr Josephat Chinhara
Fitter and Turner
Over 15 years' experience.
